

## Trevor Houser

Partner, Rhodium Group  
Co-Director, Climate Impact Lab

Trevor Houser is a partner with the Rhodium Group and leads the firm's Energy & Climate team. This interdisciplinary group of policy experts, economic analysts, energy modelers, data engineers and climate scientists analyzes the market impact of energy and climate policy and the economic risks of global climate change. Trevor also co-directs the [Climate Impact Lab](#), a collaboration of leading research institutions combining climate, economic and data science to quantify climate risk around the world. Through this partnership, Rhodium provides actionable information to policymakers, investors, academics, non-profit organizations and business leaders alike. Trevor also directs the Climate Policy Fellows program at the [City College of New York](#), his alma mater.

During 2009, Trevor left Rhodium temporarily to serve as a senior advisor at the US State Department where he worked on international energy, natural resource and environmental policy issues. From 2009 to 2015 Trevor was a Visiting Fellow at the [Peterson Institute for International Economics](#).

Trevor's publications include *Economic Risks of Climate Change: An American Prospectus* (2015), *Navigating the US Oil Export Debate* (2015), *American Climate Prospectus* (2014), *Fueling Up: The Economic and Environmental Implications of America's Oil & Gas Boom* (2014), *America's Energy Security Options* (2011), *A Role for the G20 in Addressing Climate Change?* (2010), *Assessing the American Power Act* (2010), *The Economics of Energy Efficiency in Buildings* (2009), *Leveling the Carbon Playing Field: International Competition and US Climate Policy Design* (2008), *The Roots of Chinese Oil Investment Abroad* (2008) and *China Energy: A Guide for the Perplexed* (2007).
